Always missing you Papa

“
If anyone is most important to me in this world it is only my father and I love my father the most but he is not with me today, yet he lives in my heart, in a memory. I always missing him. Today Whatever I am, only because of my father. I have reached this level today because of his inspiration. He was the one who provided me with a strong discipline and knowledge to move forward in life and make the name for myself so that today I am looking at success very close and I will get what I am strongly convinced.”
